

Press Release

At the 2021 Biennale of Venice, La Scolca embraces the lifestyle of thought in line with the new challenges of the contemporary world.

In partnership with Circle Luxury Magazine on the occasion of the exhibition

"The Law of the Circle" by Andrea Mati at Palazzo Sagredo - Venice until May 31st

Gavi, May 24th, 2021

La Scolca opens the new program of live events with the partnership with **Circle Luxury Magazine** on the occasion of **Andrea Mati's solo exhibition**, "The law of the Circle", a reinterpretation of the chapter "The electoral law" from Alice in Wonderland by L. Carol, an exhibition of scale models, drawings and music officially presented on May 19 in the fascinating **Sala Portego** of the historic Venetian palace **Ca 'Sagredo**, on display until May 31.

"I am proud to partner with **Circle Luxury Magazine** for the exhibition of an artist so talented, original and contemporary in language and themes as Andrea Mati. And above all on the occasion of a prestigious and important event such as the Biennale of Venice.

It has always been in **La Scolca's DNA** to have a look "beyond", projected to the future and to the contemporaneity, to understand the changes and inner evolutions of the world in which we live "- **Chiara Soldati** says.

"We as" vigneroni "are very sensitive and attentive to the relationship between human being, nature and the environment - **Chiara Soldati** continues – and to the respect for the territory and the importance of the harmonious reunification with the landscape. A delicate balance that we feel the responsibility to preserve. And it is this central theme of Andrea Mati's work that deeply fascinates me: the investigation of the visceral connection between human being and nature, and the importance of safeguarding the extraordinary historical, cultural and landscape heritage of our country "

Sponsors of the exhibition also **Ars Italica, Ruinart and Bentley Milano**, partner of **La Scolca**.
